Happy, Healthy People

Wigan Borough’s Locality Plan (2020-25)

Information about Wigan Borough and our plans to improve health and social care services over the next 5 years.

Our Vision

We will work through our Healthier Wigan Partnership to radically improve residents’ health and wellbeing and transform services.

By 2025, we will have health and social care services that:

Support people to be well and empowers them to look after their own health and wellbeing.

Are easily available, supporting people at home through digital technology as much as possible, or in convenient places in their community, keeping our hospitals for when they are most needed.

Are the best they can be, all working together to make sure services are safe, sustainable and delivering great care.

Some facts and figures about Wigan Borough. We will plan health and social care services to meet the needs of different people and communities.

- **324,700 residents**
- **327,000 registered GP patients**
- **65% of residents are working age**
- **23% have a long term condition**
- **We have 34,000 carers**
- **7,000 helped by adult social care**
- **97.3% of the Borough are white**
- **29% live in the 20% most deprived areas in the country**
Our 7 Places

Health and social care services will work around the 7 areas on the map below. Every area is different and we will take the time to understand the needs of residents and what we can do to improve their health and wellbeing.

Which place do you live in? What do you think we could improve in your place?

We want to:
work in communities to strengthen them, make them more resilient and give residents to tools to support themselves and others.

Our Places are...
...natural communities of 30,000-50,000 residents.
We are building services around these communities, including GP Primary Care Networks, community and social care services, Start Well services, mental health services and wider public services including leisure and the police.
Transforming the whole system

Over the next 5 years we are going to focus on improving the following services.

We want to transform all parts of the way services are accessed and used, including:

**Starting Life Well**
The services and support available to help children, young people and families.
- Maternity Services
- Start Well Services
- Children’s social care

**Primary Care Services**
The mental health, GP, pharmacy and wider primary care services that are there when you first need medical help.
- 7 day access
- Self – management
- Closer links to other services
- Primary Care Networks
- Medicines Management
- Digital (online) services

**Mental Health Services**
The services that help you with your mental health and wellbeing.
- Adult mental health
- Children and Young People mental health

**Stay Safe & Well**
The population health services and support that help people to stay safe and look after their health and wellbeing.
- Places and communities
- Health Improvement
- Wider issues affecting health
- Health Integration
- Health protection

**Help in your Community**
The services and support that are there for you when you need more help and care.
- Wider public services
- Connecting communities
- Adult social care
- Community services
- Dying Well

**Hospital without Walls**
The services offered by hospitals in Wigan and Leigh and wider that help you when you are extremely unwell.
- Collaboration with other hospitals
- Leigh Infirmary
- Cancer
- Outpatients and planned treatment

You may need to travel further to be treated by specialists.
